

EUROPEAN SNAKE SOCIETY

SNAKEDAY

SATURDAY 19 OCTOBER 1991

Universiteit Utrecht, afd. Bijzondere Dieren
Yalelaan 1, De Uithof,
Utrecht.

PROGRAM

- 09.30 hr: Doors open
- 10.00 hr: Opening remarks
Society news
- 11.00 hr: Care and breeding of colubrid snakes
K. Hingley, UK
- 12.15 hr: Pause
- 14.00 hr: Breeding Psammophis
T. Steehouder, NL
- 14.45 hr: Care and breeding of European Elaphes
H. van der Rijst, NL
- 15.30 hr: Use of echography in gravid snakes
M. Maas, NL (provisional)
- 16.30 hr: Closing remarks

During the Snake Day you have the opportunity to buy back volumes, stickers, posters etc. or to ask information at the Society stand. It is also possible to renew your membership or to become a member of the Society.

Coffee, tea, breadrolls and soft drinks are available in the canteen.

There will be stands with reptile dealers, terrarium equipment, books, prey animals, etc. Other societies will also be represented.

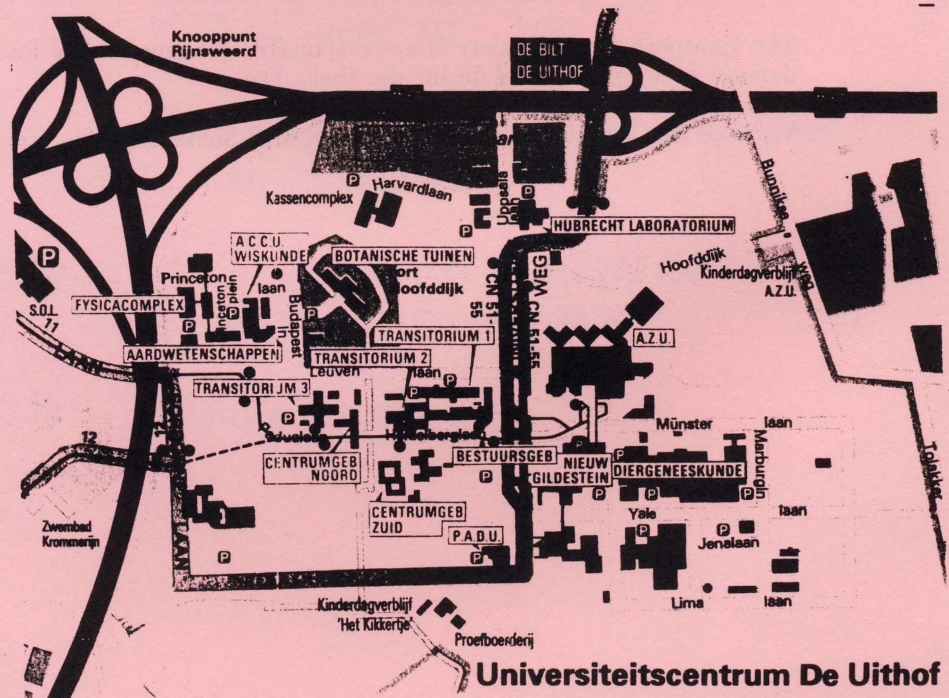

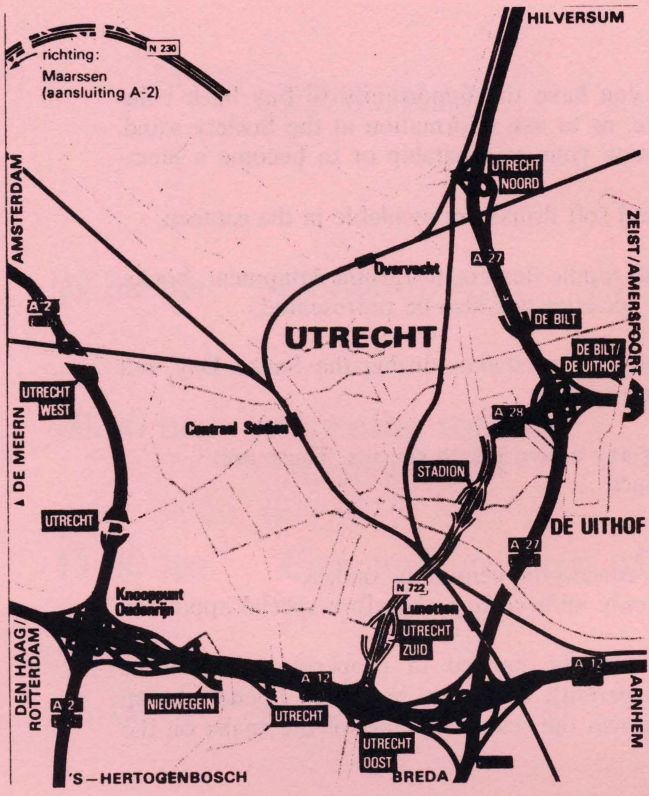

It is possible to sell and/or buy snakes during the Snake Day, but some rules should be observed:

- It is forbidden to bring any native Dutch species. These are:
 - Coronella austriaca
 - Natrix natrix
 - Vipera berus
- There are special rules concerning venomous snakes. Venomous snakes are only allowed in a therefore special appointed room. Venomous snakes have to be carried in properly locked boxes (entirely or partly transparent), which are not to be opened during the Snake Day. Write down the scientific name of the snake on the box.

We would like to stress that documents are often required for the import or export of snakes.

The European Snake Society is not responsible for any kind of loss, damage or injury incurred during the Snake Day.

We hope that you will again have an interesting Snake Day this year.
