REGISTRATION OF BREEDING RESULTS

A positive breeding result is always nice and for sure something to be proud off. Let others share in that joy and register your breeding result. In our turn we will take care to publish it in *Litteratura Serpentium* so others can learn from it as well. In the middle of this volume you can find a special registration form. Copy it, complete it and send it to Marcel Schellekens who will take further care of it. The exact address you can find on the form.
