

# REGISTRATION OF BREEDING RESULTS

*Marcel Schellekens*

*Lange Voren 11, NL-5133 TM Riel, The Netherlands*

A positive breeding result is always nice and for sure something to be proud off. Apart from that, with today's (European) legislation it is becoming more and more important to register your breeding results. Only in this way can we convince the legislators that certain species of snakes are easy to keep and breed. Something that can become very important if we want to be able to continue our hobby in the future. Let others share in your joy and register your breeding result. We will take care to publish it in *Litteratura Serpentina* so others can learn from it as well. In this volume you can find a special registration form. Copy it, complete it and send it to Marcel Schellekens who will take further care of it. The exact address you will find on the form.

## EUROPEAN SNAKE SOCIETY

## — BREEDING RESULTS —

send to: Marcel Schellekens, Lange Voren 11, NL-5133 TM Riel, The Netherlands

**NB!: please only use capital lettering or a typing machine**

Name			
Address			
Zip code and City			
Telephone			
Latin name snake			
English name snake			
Size of the terrarium			
Day temperature	summer	winter	
Night temperature	summer	winter	
Did you use a particular stimulus to activate the animals to copulate?			
Age parent animals	Male Female	length	Male Female
Date copulation			
Did the female refuse any food during gestation? If yes, from when on?			
Date egg laying*			
Number of eggs*			
Incubation temperature*			
Date birth young			
Number of hatchlings	alive	dead	
Of which generation (in captivity) are these hatchlings ?			
Weight young			
Length young			
Date 1e slough			
Was force feeding necessary?		prey	
Voluntary feeding from		prey	
Have you bred with this species before?			
Have you bred with these individuals before?			
Were the conditions equal to the previous time(s)? If not, what was different? Also indicate if previous attempts were unsuccessful and this attempt was after certain changes had been made.			
Are the parents cq. young registered with a breeding program? If so, name and address of book keeper.
